

Cowl Saver™ Baffle Seal Material

Reduces airframe vibration and stops cowl damage

You can feel the difference!

Baffle seal friction causes airframe vibration and destroys cowls

Typical silicone rubber baffle seals have a coefficient of friction among the highest of any known material. This friction transfers engine vibration into your cowl causing fastener fretting, fatigue, cracking, chaffing and airframe vibration.

Cowl Saver™ Baffle Seal Material has 30 times less friction!

- One side is silicone and the other is the revolutionary friction free surface unique to the patented **Cowl Saver™** baffle seal material.
- **Cowl Saver™** dramatically reduces the friction between your cowl and baffle seals.

Low friction saves you money!

- Reduces transfer of damaging engine vibration to the engine cowl and airframe
- Minimizes cowl chaffing and erosion from baffle seals
- Thicker low friction layer for longer life
- Reduces expensive cowl and cowl fastener repairs
- Reduces fatigue and cracking in aluminum baffles and cowl skins
- The cowling even goes on easier!

Unbeatable performance

- Advanced laminated construction has less friction and seals better
- Ideal balance of flexibility and stiffness to insure a proper seal
- Fiberglass reinforced
- Meets industry standard AMS3320G
- McFarlane quality you can count on!

Color: Gray/Black

Part Number	Thickness	Size
CS085X36X36G	.085 in	36 in x 36 in (3 ft)
CS085X18X36G	.085 in	18 in x 36 in (3 ft)
CS085X3X108G	.085 in	3 in x 108 in (9 ft)
CS085X3X156G	.085 in	3 in x 156 in (13 ft)
CS085X3G	.085 in	3 in wide, sold by the foot

Baffle seals created using this product are protected by U.S. Pat. No. 8,070,099

Convenient Baffle Seal Repair Kits

Part Number BAFFLE-KIT-1

- (1) 3 in x 108 in (9 ft) **Cowl Saver™**
(Part number CS085X3X108G)
- (1) Baffle Seal Rivet Kit
(Part number RIVET-KIT-2)
- (10) Baffle Seal Retainer Strips
(Part number 6036-012)

Best for small aircraft with straight baffle seals.

Part Number BAFFLE-KIT-2

- (1) 18 in x 36 in (3 ft) **Cowl Saver™**
(Part number CS085X18X36G)
- (2) Baffle Seal Rivet Kit
(Part number RIVET-KIT-2)
- (20) Baffle Seal Retainer Strips
(Part number 6036-012)

Recommended for most aircraft. Allows fabrication of straight, curved or irregular shaped baffle seals.

Part Number BAFFLE-KIT-3

- (1) 3 in x 156 in (13 ft) **Cowl Saver™**
(Part number CS085X3X156G)
- (1) Baffle Seal Rivet Kit
(Part number RIVET-KIT-2)
- (14) Baffle Seal Retainer Strips
(Part number 6036-012)

Best for small aircraft with straight baffle seals.

Baffle Seal Retainer Strip

Part Number 6036-012

Use as a retainer for riveting baffle seals to baffles

- 7/16 inch x 12 inch strips
- Cut to desired length during installation
- 0.050 inch thick 6061-T6 aluminum
- Corrosion resistant
- Clamps better than washers or light gauge sheet metal
- Economical

Baffle Seal Rivet Kit

Part Number RIVET-KIT-2

- Soft rivets will not deform baffles
- Several sizes for various baffle thicknesses and hole sizes

Kit contains:
Approximately

Qty.	Rivet
100	MS20470A3-5
100	MS20470A4-5
100	MS20470A4-6
